Concentric Security: 410-552-9950

	MILCON CABLE FENCE	AMERISTAR STALWART POST/RAIL
Cables	3/4"	1"
Deadman Posts	200'	192'
Cable Cross Section		1.77 times more
Cable Weight/ foot	.95	1.68
Cable Elongation after impact		50% less

The Ameristar Stalwart post and rail cable fence system provides greater performance at equal pricing than conventional MILCON cable fences. Stalwart provides better cable performance in an incident while giving your facility higher aesthetic value and less maintenance. Based on tested K8 and K12 designs the Stalwart system utilizes the same components spaced differently to meet this reduced threat. The Stalwart platform can be utilized as a post/rail barrier, a complete fence line, and/or a platform to hold electronic intrusion detection devices. Stalwart provides a complete fence solution.
