

ARCHITECTURAL PRECAST CONCRETE BARRIERS

**CONCENTRIC
SECURITY** LLC

www.concentricsecurity.com

Concentric Security's concrete barriers are excellent security measures for defining temporary or permanent setback distances from a facility. Concrete barriers can also be used to direct traffic flow, provide anti-ram protection, or prevent vehicular access to roadways and temporary entrances.

Concentric Security concrete barriers are available in a multitude of sizes, colors, finishes, and styles to match or enhance your existing architectural design. Custom products and colors are also available upon request. All concrete products carry a 1 year manufacturer's warranty.

BOLLARDS

Features:

- 25 STANDARD STYLES
- 18 COLORS, 5 FINISHES
- 3 MOUNTING OPTIONS
- INTEGRAL COLOR
- 5,000 PSI CONCRETE
- STEEL REINFORCED

Concentric Security's concrete bollards offer excellent permanent security measures that define established setback distances from a facility. Concrete bollards can be supplied for either fixed installations or as removable fixtures for applications such as vehicular access to roadways and temporary entrances. Lighted assemblies and handicapped parking insignia assemblies are also available in many styles.

PLANTERS

Features:

- 27 STYLES IN 10 SIZES
- 18 COLORS, 5 FINISHES
- 4 MOUNTING OPTIONS
- INTEGRAL COLOR
- 5,000 PSI CONCRETE
- STEEL REINFORCED

Concentric Security's concrete planters offer excellent temporary security measures that define established setback distances from a facility while remaining aesthetically pleasing. These barriers are offered in a wide variety of sizes, configurations, and styles to meet your security and architectural requirements. Our planters may also be anchored to increase the level of security.

SPHERES

Features:

- 2 STANDARD SIZES
- PEDESTAL BASE INCL.
- 18 COLORS, 5 FINISHES
- 3 MOUNTING OPTIONS
- INTEGRAL COLOR
- 5,000 PSI CONCRETE
- STEEL REINFORCED

Concentric Security offers concrete spheres as temporary security measures that define setback distances from a facility. These concrete spheres combine the latest landscape architecture designs and incorporate the combination of aesthetics and security. Our concrete spheres are available in two sizes and a variety of colors and finishes. These barriers may also be anchored to increase the level of security.

WALLS

Features:

- ENGINEERED SYSTEM
- 18 COLORS, 5 FINISHES
- 3 MOUNTING OPTIONS
- ANGLES, CORNERS, ENDS
- INTERCONNECT-ABLE
- INTEGRAL COLOR
- 5,000 PSI CONCRETE
- STEEL REINFORCED

Concentric Security offers architectural pre-cast concrete wall systems designed to establish setback distances from a facility and limit personnel access.

These concrete walls offer an aesthetically pleasing alternative replacement to "Jersey Barriers" that are often selected as a "Quick Fix" to establish a security barrier around a facility. Our concrete wall systems are available in a variety of shapes, sizes, configurations, colors and finishes. Additionally, this concrete wall system is the only barrier system that has been engineered to allow for custom site configurations using a variety of angle options that allow designers to turn corners. These barriers may also be anchored to increase the level of security.
